

ESEQuant® Flex Lateral Flow Reader

Want to quantify your rapid test but don't have your own reader yet?

Easy. Affordable. Transparent.
Get it done quickly with our new option *customization lite*

As a contract manufacturer, DIALUNOX aspires to make the customization processes quick, easy and transparent for its customers. *Customization lite* allows you to get your own reader version based on the generic ESEQuant Flex platform and benefit from the ready-to-go, proven and robust system.

The reader can be delivered in short time with individual type plate, unique documentation for immediate submission and adapted for your test cassette or strip format.

Schedule an appointment with our Global Product Manager.
